I, _____ currently residing at _____

Do hereby petition the Town of Lockport Highway Department for installing a culvert pipe for premises located at _____

A \$50.00 application fee and a \$10.00 per lineal foot fee will be assessed. The \$50.00 application fee must be paid first by check and is non-refundable. This fee is for the highway superintendent to measure the site and determine the length, diameter, and type of pipe needed. The \$50.00 application fee does not include the cost of pipe and accessories. An invoice will be sent once the highway department measures the site for the cost of installing the front yard pipe. A list of materials for the homeowner to purchase will accompany the invoice. No yard pipe will be installed until the installation fee has been paid by check. No pipe will be installed during the winter months (December – April). The homeowner will mark and expose sump pump, gutter drains, drain lines and any underground sprinkler lines and sprinkler heads. After the pipe and accessories have been delivered to the above location, please notify the highway department at 716-439-9522 and allow 30 days for installation by the highway department (10 days for new construction). No resident or contractor shall install front yard pipe.

Application fee will expire eighteen months from date of application if resident decides not to proceed with culvert installation.

The petitioner understands that, in making this application, all Rules and Regulations of the Town of Lockport Highway Department along with the SPECIAL CONDITIONS page are hereby agreed to.
